

KineticAge Mobile Application – Manual Testing Report

Prepared By: Subhasmita Pati

College: GIFT Autonomous

Role: Manual QA Tester

Platform: Android

Device: Samsung Galaxy S24 FE

Operating System: Android 16

UI Version: One UI 8.5

1. Introduction

This report presents the manual testing conducted on the **KineticAge** Android application. The objective was to verify application functionality, identify defects, evaluate the user interface (UI) and user experience (UX), and document the findings.

2. Objectives

- Verify major application features.
 - Identify functional, UI, and UX issues.
 - Prepare bug reports.
 - Create and execute test cases.
-

3. Scope

The following modules were tested:

- Login
 - Profile
 - Family Member
 - Reports
 - Library
 - Events
 - Support
 - Health Assessment
 - Delete Account
 - Logout
-

4. Test Environment

- **Device:** Samsung Galaxy S24 FE
 - **Operating System:** Android 16
 - **UI Version:** One UI 8.5
 - **Network:** Stable Internet Connection
 - **Testing Type:** Manual Testing
-

5. Testing Methodology

- Exploratory Testing
 - Functional Testing
 - Positive Testing
 - Negative Testing
 - UI/UX Testing
 - Navigation Testing
 - Performance Observation
-

6. Detailed Bug Report

BUG-01

Module: Profile

Severity: Low

Steps to Reproduce

1. Log in to the application.
2. Open the **Profile** module.
3. Tap the **Edit** icon.

Expected Result

The Edit option should allow editing of profile details or clearly indicate that it is only for changing the profile photo.

Actual Result

The Edit icon only changes the profile photo, which may confuse users.

Recommendation

Improve the UI by using a more descriptive icon or label. If the intended functionality is to edit the complete profile, verify the frontend and backend implementation and retest after the fix.

7. Project Outcome

The testing identified usability and functional issues in the application. The reported defects and recommendations can help improve the application's quality, usability, and overall user experience.
